

# COLRAIN VOLUNTEER AMBULANCE ASSOCIATION, INC

11/26/2013

To all interested Caregivers and Stakeholders,

In serving our mission to provide the best care possible to our community and Franklin County as a whole, the boards of directors of Colrain Volunteer Ambulance Association, Inc., have voted to begin the process of upgrading to the Paramedic level of service.

This advancement in care is one of the first steps in promoting and investing in our overall goal of providing cutting edge out of hospital care that fully integrates a community based healthcare model. This model seeks to partner health care providers both public and private to advocate for, and grow a system of community health management that is integrated to improve overall health in our community.

As a progressive and locally invested EMS provider in Franklin County, Colrain Ambulance looks forward to developing strong and long lasting relationships that enhance and integrate care to our communities with all of you who make a difference.

We welcome and encourage your thoughts, suggestions and comments.

Sincerely,

JoAnne Deady, EMT-P  
President/Member, Board of Directors  
Colrain Volunteer Ambulance Association, Inc.
